*Putting Theory into Practice in the Contemporary Classroom* Becky McLaughlin,2017-01-06 This collection of fourteen essays by scholars from Canada Europe the United Kingdom and the United States emerges from a growing interest in the ways postmodern theory can illuminate not just the products and ideas of high culture but also the ins and outs of everyday life Taking the university classroom broadly construed as a site of theoretical investigation this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them It also illuminates current pressures on higher education that find expression in the classroom As a forum for these issues these essays draw upon Deleuzian feminist Foucauldian and psychoanalytic approaches among others recognizing not only that

these approaches are often in conflict but also that collectively they enhance our understanding of the classroom Important questions posed here include whether and if so how we can combine a Marxist or Foucauldian emphasis on the disciplinary and hegemonic practices of educational institutions with a Lacanian or Barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students teachers and classrooms Which theoretical and pedagogical innovations can help teachers and students to get the job done as well as to theorize the job to simultaneously practice education and imagine other forms and ends for education How can theory help us to historicize criticize and re draw the productive but sometimes disabling lines that make the classroom and its subjects A site for lively theoretical debate about these and related pedagogical issues this volume will prove useful for anyone wanting to reinterpret reinvent and reinvigorate the classroom Using Young Adult Literature to Work through Wobble Moments in Teacher Education

Dawan Coombs,Jon Ostenson,2022-07-25 This volume offers a novel approach to exploring how literary response groups can be used as part of teacher education programs to help preservice teachers navigate wobble moments Focusing uniquely on the potential of young adult literature YAL the text draws on the first hand experiences of teacher candidates and uses a range of well known books to demonstrate how narrative based inquiry and analysis of fictional depictions of teaching and learning can support reflection on a range of common challenges The volume presents how YAL literary response groups are shown to enhance participants ability to reflect on practice build resilience and develop deeper understanding of pedagogical principles by offering a shared dialogical space These insights ultimately contribute to teacher education program improvement by enhancing teacher candidates understanding of pedagogy This text will benefit researchers doctoral students and academics in the fields of teaching teacher mentoring and teacher education more specifically Those interested in literature studies and young adult literature YAL more broadly will also benefit from this volume *Skeletal Trauma*
