Fernández, Adrienne L. Martin, 2022-11-01 Miguel de Cervantes's experimentation with theatricality is frequently tied to the notion of revelation and disclosure of hidden truths *Drawing the Curtain* showcases the elements of theatricality that characterize Cervantes's prose and analyses the ways in which he uses theatricality in his own literary production Bringing together the works of well known scholars who draw from a variety of disciplines and theoretical approaches this collection demonstrates how Cervantes exploits revelation and disclosure to create dynamic dramatic moments that surprise and engage observers and readers Hewing closely to Peter Brook's notion of the bare or empty stage Esther Fernández and Adrienne L. Martin argue that Cervantes's omnipresent concern with theatricality manifests not only in his drama but also in the myriad metatheatrical instances dispersed throughout his prose works In doing so *Drawing the Curtain* sheds light on the ways in which Cervantes forces his readers to engage with themes that are central to his life and works including love freedom truth confinement and otherness *Rewilding Food and the Self* Tristan Fournier, Sébastien

Dalgarrondo, 2022-11-04 This volume contributes to the return to nature movement that is very much in vogue in contemporary European societies by examining the place of food and eating in the rewilding process It is divided into three parts each of which consists of conversations between social scientists with fieldwork collected from across Denmark Finland France Italy Norway and Switzerland The first part focuses on the ways in which the hunter gatherer livelihood has been transformed into a resilient simpler and ecological way of life It is dedicated to hunting and identifies the contexts in which large wild game meat is consumed and the reasons why such a product is still valued today The second part shows how some practices that aim to reconnect with natural processes are developing within a market economy Case studies on natural wine and fasting retreats help us to identify the promises that producers and promoters are relying on in order to disseminate them Finally the third part considers how this process of rewilding food is expressed in post modernity By focusing on two normative frameworks in which the rhetoric of the wild is mobilized although it is not expected to be in these terms urbanity and the gender order the goal is to understand the extent to which referring to the wild in food discourses and practices contributes to challenging our identities and to creating possible forms of emancipation This book will be of great interest to students and scholars interested in food cultures human nature relationships and sustainable diets *The Body Language Rules* Judi James, 2009 Unlike other guides that only focus on business uses *Body Language Rules* takes a fresh approach by showing readers how to decode body language for social dating and other practical purposes
