

Listen **ing**.

Listen to a story.

In the winter, bears get ready for winter. When it gets cold, bears sleep in dens for the winter. Dens can be in trees or caves. When they are sleeping all winter, it is called hibernating.

Answer questions 1, 2 and 3. Circle the correct answer for each question.

1. Which picture shows what the story is about?

Nyseslat Test Prep 2013:

Handbook of Research on Assessment Literacy and Teacher-Made Testing in the Language Classroom White, Eddy, Delaney, Thomas, 2018-11-23 The evaluation of student performance and knowledge is a critical element of an educator's job as well as an essential step in the learning process for students. The quality and effectiveness of the evaluations given by educators are impacted by their ability to create and use reliable and valuable evaluations to facilitate and communicate student learning. The *Handbook of Research on Assessment Literacy and Teacher Made Testing in the Language Classroom* is an essential reference source that discusses effective language assessment and educator roles in evaluation design. Featuring research on topics such as course learning outcomes, learning analytics, and teacher collaboration, this book is ideally designed for educators, administrative officials, linguists, academicians, researchers, and education students seeking coverage on an educator's role in evaluation design and analyses of evaluation methods and outcomes.

Pathways to Thinking Schools David N. Hyerle, Larry Alper, 2013-10-15 Give students the essential thinking skills they need to thrive. Content focused teaching may yield marginal improvements in test scores but leaves students without the cognitive skills and dispositions for success in an information overloaded world that requires deep thinking, collaborative problem solving, and emotional intelligence. David Hyerle has brought exciting models for enabling students to drive their own thinking and learning to schools in every corner of the world with outstanding results. In this book, Hyerle presents case studies of schools and educators who have applied these models in some cases system wide to ensure every student can thrive in an increasingly complex future. Among his powerful concepts for short and long term improvement are Visual Tools for Thinking, The nonlinguistic tools that have made Hyerle's famous Thinking Maps model so successful, Dispositions for Mindfulness, a language for students to improve their intellectual/emotional behaviors as they learn, Questioning for Inquiry, A system for developing students' abilities to ask questions in the context of a developing Community of Inquiry including the use of Bloom's revised Taxonomy and the Six Hats Thinking model. Ultimately, *Pathways to Thinking Schools* synthesizes the potential of smart content based teaching with the powerful thinking skills and dispositions that supercharge the educational experience. In a global community, countries recognize reciprocal interests and the need and benefit of interdependence. Therefore, this new paradigm of a global community calls for Thinking Schools internationally.
