Thus, this conference has aims: 1 to bring together the scientists, researchers and practitioners and lecturers; 2 To share and to discuss theoretical and practical knowledge about innovation in tourism management and technology fields. The conference took place in Universiti Kuala Lumpur, Malaysia, on August 17th, 2019. There are 34 papers that are participated from various topics. The conference involves tourism management and technology fields such as Media and Technology in Tourism, Innovation in Tourism, The Theoretical Perspective on Tourism, Sustainable Tourism, Gender and Diversity Issue in Tourism, Technology and Management on Tourism, Law in Tourism, Health Tourism, Tourism Policy and Planning, Tourism and Environment, Finance in Tourism. Specifically, this conference can be used as a scientific forum for accommodating discussion among young researchers that originated from Indonesia in the field of Tourism Management and Technology. Therefore, the invited speakers in this conference are the researchers that are well known and reputable in the world. We would like to thank the organizing committee and the members of reviewers for their kind assistance in reviewing the papers. We would also extend our best gratitude to keynote speakers for their invaluable contribution and worthwhile ideas shared in the conference. Furthermore, ICTMT is hoped to be able to be used as academic media to exchange ideas and as a result, it will succeed in deciding the recommendation related to the tourism management and technology phenomenon. **Guinea** International Monetary Fund. African Dept., 2016-04-04

This report reviews Guinea's economic performance under the program supported by an Extended Credit Facility (ECF) arrangement. Guinea was declared free of the Ebola epidemic at end 2015 and after two years of stagnant activity, growth is expected to rebound this year. After solid performance in 2014, ECF program implementation weakened in 2015. Following last October's Presidential elections, there has been a concerted effort to bring the ECF supported program back on track. Macroeconomic policies for 2016 aim to improve reserves coverage to three months of imports and keep inflation within single digit figures as envisioned in the 2015 ECF supported program. The 2016 budget envisions a significant broad-based fiscal contraction. **Applied Mechanics, Mechatronics and Intelligent Systems - Proceedings of the 2015**

International Conference (AMMIS2015) Shihong Qin, 2015-12-08 This book consists of one hundred and twenty-five selected papers presented at the 2015 International Conference on Applied Mechanics, Mechatronics and Intelligent Systems (AMMIS2015) which was held in Nanjing, China, during June 19-20, 2015. AMMIS2015 focuses on seven main areas, namely: applied mechanics, control and automation, intelligent systems, computer technology, electronics engineering, electrical engineering, and materials science and technology. Experts in this field from all over the world contributed to the collection of research results and development activities. AMMIS2015 provides an excellent international exchange platform for

researchers to share their development works and results in these areas All papers selected for this proceeding were subjected to a rigorous peer review process

The Brazilian CFIA model as a mechanism for enhancing protection and respect for socio-economic rights

Marina Martins Martes,2023-09-28 This research evaluates whether the new model of investment agreement developed by Brazil CFIA is a mechanism for enhancing protection and respect for social and economic rights The research starts by exploring the origins of investment treaties their development and main characteristics It examines why investment treaties and socio economic rights are related by mapping cases in which investment treaties have already impaired the protection of such rights The research then analyzes how these two issues shall be jointly handled It considers international organizations initiatives to regulate business and human rights and investment treaties frameworks that foster sustainable development as well as new investment agreements models developed by different countries and then suggests criteria for evaluating whether an investment treaty is adequate from the socio economic rights standpoint Finally this research investigates the CFIA model brings a brief historical overview evaluates CFIA's wording and examines how some CFIA's institutional mechanisms consider corporate social responsibility issues In conclusion this research asserts that the CFIA model can be a mechanism for enhancing protection and respect for socio economic rights but some concerns particularly related to safeguarding States regulatory space and providing for stronger obligations to investors and States to protect human rights need to be addressed *Urbanization and Affordances that Promote Well-Being for (Urban) People and for a Healthy Biosphere*

Stephan Barthel,Marketta Kytta,2020-01-30 The world is urbanizing at an unprecedented rate It is estimated that in the near future urban landscapes for another ca 2.7 billion people will be built on planet Earth approximately converting land equivalent to the size of South Africa Such land conversion coupled with citizen densification increasing inequalities shifting diets and emerging technologies challenge human well being and pose ever increasing demand for resources generated by the Biosphere This Research Topic concentrates on the various ways urbanization can promote individual well being mental physical and social health as well as ecological health a healthy Biosphere What kind of affordances for human health promotion can urbanization include What kinds of affordances for a psychological connection with nature can urbanization include What kinds of nudges for pro environmental behavior and consumption decreasing detrimental consumption behaviors can be actively designed in urban settings The Research Topic at hand uses a transactional approach where an affordance can be understood as a non deterministic in situ precondition for a human activity enabled by relations between abilities of an individual with features of an environment We encourage a broad definition of the concept of affordances where the environment must not be restricted to the material biophysical environment alone but also could be combined with social immaterial features We see that the transactional approach of this Research Topic posits that meaning arises in relations between humans and their environment that it will be equally applicable to natural and designed environments and that it doesn't regard dichotomies like city contra nature or social contra ecological Hence this Research Topic is interested in if the transactional approach can be used as a conceptual tool not only for promotion of mental physical and social health in cities but simultaneously for unraveling relations at the micro scale in cities which can be used for

solutions that also promote a healthy Biosphere **Our Social World** Jeanne H. Ballantine, Kathleen Odell Korgen, 2022-09-30 The Eighth Edition of *Our Social World* Introduction to Sociology inspires students to develop their sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis The text is organized around the Social World model a conceptual framework that demonstrates the relationships among individuals the micro level organizations institutions and subcultures the meso level and societies and global structures the macro level The consistent application of the Social World Model across chapters represented in a visual diagram in the chapter openers helps students develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of disparate subjects This title is accompanied by a complete teaching and learning package in SAGE Vantage an intuitive learning platform that integrates quality SAGE textbook content with assignable multimedia activities and auto graded assessments to drive student engagement and ensure accountability Unparalleled in its ease of use and built for dynamic teaching and learning Vantage offers customizable LMS integration and best in class support **Research Handbook on Freshwater Law and International Relations** Mara Tignino, Christian Bréthaut, Recent decades have seen pivotal changes in the management and protection of water resources with human rights environmental and water law each developing a strong interest in the conservation of fresh water This surge in interest has meant that dispute settlement mechanisms along with diplomatic tools are becoming increasingly necessary for conflict resolution This Handbook offers an analysis of the interaction between law and various forms of knowledge and expertise ranging from economics to environmental and social sciences Leading scholars examine general and specific water legal regimes and analyse the interplay between various disciplines in order to establish the extent to which law is informed by each **OECD Regional Development Studies The Governance of Land Use in the Netherlands The Case of Amsterdam** OECD, 2017-05-17 This study examines the social economic and environmental conditions affecting the spatial development of Amsterdam and its metropolitan area as well as the plans policies and institutions that govern how land is used *...Tide Tables for the Pacific Coast of the United States Together with a Number of Foreign Ports in the Pacific Ocean* U.S. Coast and Geodetic Survey, 1907 Federal Register , 2014 **The Politics of the European Neighbourhood Policy** Agnieszka K. Cianciara, 2020-04-28 This book examines the European Neighbourhood Policy ENP in the context of internal functions performed with regard to the European Union EU political system and its key actors It argues that the ENP has been formulated not only in reaction to external challenges and threats but also in response to EU internal legitimacy needs at systemic institutional and actor level Looking beyond governance approaches and the power of norms this book follows a sociological approach to the politics of legitimation Using Bourdieu s field theory it bridges the rationalist constructivist divide inherent in much of ENP scholarship While analyzing articulations of EU institutions in terms of narrative production reproduction and reconstruction it sheds valuable light on where the conflicting goals ambiguity and

incoherence stem from By highlighting Developing Nations responses and usages of ENP narratives for domestic and international legitimacy seeking the book calls for a more outside in perspective on EU foreign policy With the European integration project being increasingly contested both internally and externally this book provides a timely focus on the topic of legitimation and delegitimation dynamics with regard to EU foreign policy This book will be of key interest to scholars and students of European integration and EU foreign policy and more broadly EU Studies and International Relations *Judicial institutionalization of integration processes* Ricardo Caichiolo,2016-09-07 The focus of this book is the judicial institutionalization of integration processes through the development of dispute settlement mechanisms more specifically in the Common Market of the South MERCOSUR to date the most important regional bloc in Latin America The bloc has been in existence since 1991 and has positioned itself as one of the potential regional blocs for trade and investment while becoming one of the important actors in the international community However its achievements have been tainted by the gaps and problems attached to the core foundation of the regional bloc MERCOSUR has been suffering or experiencing internal disputes and disunity due to its complex and low institutionalization a situation which can be seen as being paradoxical Its current Dispute Settlement Mechanism is subject to uncertainty and doubt since its own framework is also under internal and external criticism There has been a series of protocols made in order to tackle the problems of the DSM and to further fix the problems that hinder the cooperation as well as the productivity of MERCOSUR s intra organisation all guided by intergovernmental decision making As such this book seeks to tackle the concept of regionalism and the possible models which have been used or have influenced the establishment of MERCOSUR while discussing the different aspects and developments of each intra organisation This is done in order to evaluate the nature of the problem and future developments that could take place The book also focuses on the prevalence of politicization in MERCOSUR and the pre eminence of Presidential Diplomacy over the path of regional integration which influence the DSM of MERCOSUR and possible developments that might occur in the near future **Creativity, innovation, and entrepreneurship in healthcare and service systems** Fu-Sheng Tsai,Gang Li,Xiao-Bing Zhang,Jianhong He,Eugene Mutuc,2023-03-30 *Regional Integration and Governance Reshuffling in the Making of China's City-Regions* Xianchun Zhang,2023-08-07 This book for the first time thoroughly investigates the extent of economic and institutional integrations and the underlying governance reshuffling process of China s city regionalism By using the Shenzhen Dongguan Huizhou sub region SDH in southern China as an empirical case this book provides convincing evidence that China s city regionalism is essentially a state orchestrated and institution based process Perspectives from market industry infrastructure and multi level governance MLG have been provided to systematically examine China s city regionalism This book has essentially made a definitive contribution to China s regional governance Methodologically it shows how China s city regionalism can be examined through a problem solving and case by case paradigm through building a bridge between an empirical slogan and an inclusive theoretical term for

institutional integration and through MLG and its integrative approaches in China. Exhilarating findings are presented using extensive tables, graphs and maps along with the integration of quantitative and qualitative methods. Undergraduates, graduates and researchers who are interested in China's city regionalism and regional governance would be the readership of the book and officers from different levels of government as well as policymakers will find the book inspiring.

The papers included in this proceedings share the latest research results and practical application examples on the methodologies and algorithms in these areas, which makes the book a valuable reference for researchers, engineers and university students.

EU Legal Acts Marise Cremona, Claire Kilpatrick, 2018-02-08. In this collection of essays originally presented at the Academy of European Law in Florence, the changing landscape of the EU's legal acts is explored. Further to this, the changing boundaries between legal acts and processes which may create norms but do not create law in the traditional sense are analysed. This landscape is presented in two ways. Firstly, by focusing on the transformations and challenges to the EU's traditional legal acts in particular, since the reconfiguration of the categories of legal acts and the procedures for which they are adopted by the Lisbon Treaty. Secondly, the collection focuses on those acts found at or beyond the margin of classic EU legal acts, including acts of Member States such as inter-se treaties, self-regulation and collective agreements, so-called soft law and decision making outside the normal legislative procedures. The volume endeavours to explain the adaptability of the EU legal order despite the fact that the legal instruments at the Union's disposal have not fundamentally changed since the Treaty of Rome came into force 60 years ago. It explores the challenges that new decisional procedures and variations in the legal quality of EU acts pose for the EU's legal order, including alterations to institutional balance and the roles of the different institutional actors and challenges to the rule of law.
