Book Two** C J

Swan,2019-07-18 The Great Awakening is a global movement by which a corrupt power structure is being systematically dismantled C J Swan has already written a first book of poems of the Great Awakening and this is the second in what is expected to be a trilogy As heroes of the takedown of the Deep State reference is made to JFK JFK Jr Donald Trump and Q Anon When the first of these poems was written the victory of the forces of Light was still doubtful Now though many people are still sleeping a major revolution is well underway and the Power of the People is emerging victorious As the final poem says They tried to bury us not knowing we were seeds *We the People* Gary Barbknecht,2010-07 Are you concerned about the growing National Debt Are you unemployed and can t find a job Do you believe that our government is out of control Do you feel helpless and don t know what to do to help If you answered these questions with a YES then you need to look into the principles of this book and get started learning how one person can join up with many others to make changes that will fix these problems Inside this book are many common sense suggestions about what needs to be looked into in America and what can be done to start making the changes necessary to create more jobs getting control of the government and reducing

the national debt Learn what others are doing and find out why the Tea Party Movement is the way to get our country back Gary Barbknecht grew up on a farm in rural Indiana attending school in a small town His mother was a 4th grade school teacher in the same school in the same building Parent Teacher Associations PTA was the norm in those days so Gary was familiar to both sides of the teaching profession and sat in on meetings pertaining to school materials and issues After high school Gary attended college at Purdue University received his bachelor s degree in Electrical Engineering in 1965 Gary worked in the electronics industry for 42 years part of the time as a contractor fabricating military electronics and part of the time as an adviser to the air force in the procurement of aircraft systems Gary retired in 2007 just as the recession took hold and watched his retirement savings melt to nothing After 3 years in retirement Gary realized that government needed some supervision and started to get more involved in government activities and started to study civic issues When not tracking political tomfoolery Gary enjoys freshwater fishing and grows his own fruits and vegetables as much as possible

We the People Thomas Linzey, Anneke Campbell, 2016-11-24 We the People offers powerful portraits of communities across the United States that have faced threats from environmentally destructive corporate projects and responded by successfully banning those projects at a local level We hear the inspiring voices of ordinary citizens and activists practicing a cutting edge form of organizing developed by the nonprofit law firm the Community Environmental Legal Defense Fund CELDF Their methodology is an answer for the frustrations of untold numbers of activists who have been defeated time and again by corporate political power and legal entitlement Instead of fighting against what we don t want this book can teach us to create from the ground up what we do want basing our vision in local control and law By refusing to cooperate with the unjust laws that favor corporate profit over local sustainability communities can show the way forward driving their rights into state constitutions and eventually into the federal Constitution In communities from New Hampshire to Oregon new forms of local organizing have sprung up to fight fracking mining dumping of toxic waste and industrial agriculture among other environmental assaults These communities have recognized that the law has legalized the damaging actions of corporations while providing no recourse against harm and they have therefore decided to create a new system of law that makes local control and sustainability legal Starting small this process has spread from rural Pennsylvania to larger cities and towns and has resulted in the creation of state networks seeking to amend state constitutions This work is about finishing the American Revolution by giving up the illusion of democracy and forging a system of true self governance In addition this is about recognizing in law for the first time in history that nature possesses legally enforceable rights of its own

was a work of such powerful persuasiveness as to alter the course of American historiography No historian who followed in studying the making of the Constitution was entirely free from Beard s radical interpretation of the document as serving the economic interests of the Framers as members of the propertied class Forrest McDonald s *We the People* was the first major challenge to Beard s thesis This superbly researched and documented volume restored the Constitution as the work of principled and prudent men It did much to invalidate the crude economic determinism that had become endemic in the writing of American history *We the People* fills in the details that Beard had overlooked in his fragmentary book MacDonald s work is based on an exhaustive comparative examination of the economic biographies of the 55 members of the Constitutional Convention and the 1 750 members of the state ratifying conventions His conclusion is that on the basis of evidence Beard s economic interpretation does not hold McDonald demonstrates conclusively that the interplay of conditioning or determining factors at work in the making of the Constitution was extremely complex and cannot be rendered intelligible in terms of any single system of interpretation McDonald s classic work while never denying economic motivation as a factor also demonstrates how the rich cultural and political mosaic of the colonies was an independent and dominant factor in the decision making that led to the first new nation In its pluralistic approach to economic factors and analytic richness *We the People* is both a major work of American history and a significant document in the history of ideas It continues to be an essential volume for historians political scientists economists and American studies specialists
