*The Report: Malaysia 2014* Oxford Business Group, 2014-12-08 Malaysia's natural resources and its well educated population are some of the many credentials that keep the country in good stead with priorities centred on preparing for the ASEAN Economic Community in 2015 and steering the policy framework toward more inclusive political representation. The economy is built around global trade and the government is working to encourage greater private investment. Malaysia's GDP per capita is the highest in South east Asia with the exception of smaller countries like Singapore and Brunei Darussalam reaching 10 548 in 2013 based on a GDP of 307 25bn and a population of almost 30m. The country produces 39% of the world's palm oil and 44% of its exports and Increasing global demand for the commodity Bodes well for the industry. Malaysia has seen its stock rise in the World Bank's Annual the Ease of Doing Business report moving up to 6th position in 2014 from 8th the previous year's Avatar. Recent times have seen the Government push hard for a Greater role for the private sector in the country's development with the various Government Programmes aiming to boost Transparency accountability and Sustainable Growth. The overall aim of these plans is to elevate Malaysia to become a high income country by 2020. AIR CRASH INVESTIGATIONS - SHOT DOWN OVER UKRAINE? - The Crash of Malaysia Airlines Flight MH17 Dirk Jan Barreveld, editor, 2019-08-23 On 17 July 2014 at 13 20 a Boeing 777 200 with the Malaysia Airlines nationality and registration mark 9M-MRD disappeared to the west of the TAMAK air navigation waypoint in Ukraine. The aeroplane impacted the ground in the eastern part of Ukraine near the villages of Hrabove Rozsypne and Petropavlivka. All 298 persons on board lost their lives. The in flight disintegration of the aeroplane near the Ukrainian Russian border was the result of the detonation of a warhead. The weapon used was a 9N314M model warhead carried on the 9M38 series of missiles as installed on the Buk surface to air missile system. But was MH17 really hit by a 9N314M model war head mounted on a 9M38 series missile? Careful examination of the available facts show that the conclusion of the Dutch Safety Board DSB are questionable to say the least. The report is a mixture of an air crash investigation and a criminal investigation.
