Bureau of Manufactures,1909 First Officer Peter R Fitton,2020-02-05 First Officer tells how Jamie a twelve year old boy is taught by his father to be a pilot They fly together Jamie learning in the right hand seat Over a two year period Jamie learns the cockpit drills interprets

the maps navigates and perfects his piloting skills First Officer will have you in the cockpit with them The story of First Officer reminds readers that a private pilot's license like a motor vehicle license is granted with conditions It's not a right but a privilege There are rules most of them in place for the safety of those in the air and on the ground Failure to heed them may prove disastrous Piloting your own plane can be sensational for the way the aircraft's speed can upturn our sense of space distance and lifestyles It can be like a magic carpet ride but there are dangers with little room for error Becoming a good pilot requires knowledge and teaching which are adequate when things go according to plan But when an unexpected and disastrous event occurs we learn that survival requires more than piloting skills alone We discover the value of courage and determination First Officer is an Australian story based at Tyabb on Melbourne's beautiful Mornington Peninsula *The Victorian Naturalist*, 1929 *The Victorian Historical Magazine*, 1911 *Report Commonwealth Shipping Committee*, 1915
