Loryn, 2018-08-18 Adrian Davis abandoned his old life for a new start in a new town He comes with his toolbox a suitcase full of clothes and a hope of something better His main goal To forget about everything that happened before he parked his red hatchback in front of his new home Scott Scottie Robinson is a man who s got just about everything he wants a successful company that he co owns with his twin brother and the perfect family supporting them along the way The only thing he doesn t have is a man by his side during the day and in his bed at night Scott s not looking for a relationship he s happy dating his business However when he calls a repairman and Adrian shows up at his door his world shifts He s ready to take a chance on love Nothing good is ever easy especially when secrets start unfolding and there are more people invested in their relationship than just them

*Anatomy Museum* Elizabeth Hallam, 2016-06-15 The wild success of the traveling Body Worlds exhibition is testimony to the powerful allure that human bodies can have when opened up for display in gallery spaces But while anatomy museums have shown their visitors much about bodies they themselves are something of an obscure phenomenon with their incredible technological developments and complex uses of visual images and the flesh itself remaining largely under researched This book investigates anatomy museums in Western settings revealing how they have operated in the often passionate pursuit of knowledge that inspires both fascination and fear Elizabeth Hallam explores these

museums past and present showing how they display the human body whether naked stripped of skin completely dissected or rendered in the form of drawings three dimensional models x rays or films She identifies within anatomy museums a diverse array of related issues from the representation of deceased bodies in art to the aesthetics of science from body donation to techniques for preserving corpses and ritualized practices for disposing of the dead Probing these matters through in depth study Anatomy Museum unearths a strange and compelling cultural history of the spaces human bodies are made to occupy when displayed after death
