

## This kit contains:

- A wooden loom (26.5x17cm-10<sup>1</sup>/<sub>2</sub> x 6<sup>1</sup>/<sub>2</sub>)
- One wooden comb, two loom shuttles and two thread spacers.
- Four coloured lengths of wool to get you started

**Instructions:** Put your loom on a table in front of you with the notches positioned at the top and the bottom of your frame.

1. 'Warp' your loom. Tie one end of your chosen colour of thread around the bottom left-hand corner and wind it up and down through the notches so they are well held - but not too tight. Tie off the thread in the opposite corner and cut off the excess.

2. Weave the thread spacer (over and under) to separate them slightly in order to pass a loom shuttle through the threads easily. Wrap a length of thread around the loom shuttle, tie one end to the bottom of the first warp thread and push the loom shuttle through the warp thread going over and under.

3. To weave the next row, your shuttle should weave under the threads you went over and over those you went under. Use the comb to tamp the weave down so it is all snug together

4. Once you have completed your weaving cut the thread leaving a 4cm long tail. Tie the loose end to the last warp thread and trim the tails off the weaving. Now your weave is ready to use to make a purse or a scarf or a hat or...anything you like!

## Remember:

When weaving do **not** pull the threads too tight otherwise the weaving will become pulled in at the centre.
