**The Australian Army from Whitlam to Howard** John Blaxland,2014 The

Australian Army from Whitlam to Howard is the first critical examination of Australia's post Vietnam military operations spanning the 35 years between the election of Gough Whitlam and the defeat of John Howard. John Blaxland explores the casualty cringe felt by political leaders following the war and how this impacted subsequent operations. He contends that the Australian Army's rehabilitation involved common individual and collective training and reaffirmation of the Army's regimental and corps identities. He shows how the Army regained its confidence to play leading roles in East Timor, Bougainville and the Solomon Islands and to contribute to combat operations further afield. At a time when the Australian Army's future strategic role is the subject of much debate and as the Asian Century gathers pace and commitment in Afghanistan draws to an end, this work is essential reading for anyone interested in understanding the modern context of Australia's military land force.

**The Australian Policy Handbook** Catherine Althaus, Sarah Ball, Peter Bridgman, Glyn Davis, David Threlfall, 2022-12-21. The seventh edition of this classic handbook on the policy process is fully updated, featuring new material on policy making amid local and global disruption, the contestable nature of modern policy advice, commissioning and contracting, public engagement and policy success and failure. The Australian Policy Handbook shows how public policy permeates every aspect of our lives. It is the stuff of government: justifying taxes, driving legislation and shaping our social services. Public policy gives us roads, railways and airports, emergency services, justice, education and health services, defence, industry development and natural resource management. While politicians make the decisions, public servants provide analysis and support for those choices. This updated edition includes new visuals and introduces a series of case studies for the first time. These cases, covering family violence, behavioural economics, justice reinvestment, child protection and more, illustrate the personal and professional challenges of policymaking practice. Drawing on their extensive practical and academic experience, the authors outline the processes used in making public policy. They systematically explain the relationships between political decision makers, public service advisers, community participants and those charged with implementation. The Australian Policy Handbook remains the essential guide for students and practitioners of policy making in Australia.

**Nationhood, Executive Power and the Australian Constitution** Peta

Stephenson,2022-09-08 The first comprehensive study of the nature and scope of the nationhood power this book brings a fresh perspective to the scholarship on the powers of the executive branch in Australia The question of when the Federal Executive Government can act without the authorisation of the Parliament is contested and highly topical in Australia In recent judicial decisions Australian courts have suggested that statutory authorisation may not be required where the Federal Executive Government is exercising the nationhood power that is the implied executive power derived from the character and status of the Commonwealth as the national government The Federal Executive Government has relied on this power to implement controversial spending programs respond to national emergencies and exclude non citizens from Australia Together the chapters in this book analyse and evaluate judicial observations about the operation of the nationhood power in these different contexts and the limits which apply to it While the focus of this book is on the nationhood power it also addresses broader issues concerning the relationship between the legislative and executive branches in parliamentary systems of government This book makes an important contribution to the literature on executive power and will appeal to constitutional lawyers scholars and practitioners and those who are involved in the administration of government
