The Parliamentary Debates (official Report). Great Britain. Parliament. House of Commons, 1916 Contains the 4th session of the 28th Parliament through the 1st session of the 48th Parliament *California Citrograph*, 1918 *Radical Constructivism in Mathematics Education* E. Glasersfeld, 2006-04-11 Mathematics is the science of acts without things and through this of things one can define by acts 1 Paul Valéry The essays collected in this volume form a mosaic of theory research and practice directed at the task of spreading mathematical knowledge They address questions raised by the recurrent observation that all too frequently the present ways and means of teaching mathematics generate in the student a lasting aversion against numbers rather than an understanding of the useful and sometimes enchanting things one can do with them Parents teachers and researchers in the field of education are well aware of this dismal situation but their views about what causes the wide spread failure and what steps should be taken to correct it have so far not come anywhere near a practicable consensus The authors of the chapters in this book have all had extensive experience in teaching as well as in educational research They approach the problems they have isolated from their own individual perspectives Yet they share both an overall goal and a specific fundamental conviction that characterized the efforts about which they write here The common goal is to find a better way to teach mathematics The common conviction is that knowledge cannot simply be transferred ready made from parent to child or from teacher to student but has to be actively built up by each learner in his or her own mind

Failure Is A Word Constantine Maureas,2016-11-03 This book began as a business book I wanted to write about interviewing among other things but a strange thing happened As I wrote more I was inclined to think about the sacrifices my mom made for my family and the role that my dad played in the development of my character I wrote everything I could think of even going back to my childhood that would relate to the vision that I had for my life I wrote about my career after

graduating from UCLA the events that led me to the adoption of my son and then finally to the present state of my life in Los Angeles I wrote everyday for at least thirty minutes for about two years I began writing this book from the time that my son was placed in our care when he turned three to now in the first few months of kindergarten As I wrote the last words of my book I realized that I actually wrote three books in one It made sense to break it up into three different works This is the first in the series what is called in literature as bildungsroman not as a novel but as a memoir of sorts The second book is focused on my the first part of my adult life and the eventual adoption of my son my greatest accomplishment in life Finally in summation of my life so far I take a look around and find that I have some insights to offer My other motivation to write this book is that I have managed young people for over twenty five years While my generation known as Generation X had its own challenges I find that more students graduating now are challenged in many of the same ways that I was challenged There is a tremendous amount of pressure on college graduates to know what they are going to do with their lives I am not sure that really matters Some people know and some do not Do what you want and what you think is right You will find your way

On the Road with Wellington August Ludolf Friedrich Schaumann, 1924 August Schaumann was a natural born storyteller He describes his Peninsular adventures so vividly that you get the feeling that you are there riding next to him dodging French cavalry patrols and conquering the hearts and bodies of Spanish and Portuguese ladies But who was August Schaumann He was born in Hanover in 1778 At the age of 16 he was compelled to join the army against his will but he eventually rose through the ranks to the rank of junior subaltern In 1799 his father a severe and harsh man removed his son from the army and procured him a position at the postal service In 1803 he left his home in Hanover and proceeded to England where he was employed as a clerk at a Newcastle firm In 1807 he decided to move to Russia He never made it there because heavy storms forced him to take refuge in Goteborg Sweden Here too he found a brief employment as a clerk When the English fleet sailed back to England after its Swedish expedition in 1808 August boarded one of its ships and was taken to England to start a new career as war commissary in the Kings German Legion On the 28th August 1808 August Schaumann set foot on the shores of Maceira Bay in Portugal From here on he tells us in great detail and in a style that captivates the reader about his Peninsular adventures As a war commissary Schaumann saw did and lived it all Not only does he tell us about his perilous and difficult duties as a commissary but he also tells us about his numerous romantic adventures and about life in Spanish and Portuguese billets Because he was a keen observer and a great storyteller he was able to describe some of the great battles of the Peninsular War and the invasion of France in 1814 He also describes the gruesome retreat from Coruna the endless marches and counter marches and the hardships that the common soldiers had to endure in a way that puts you the reader right in the middle of it August ended his military career in 1816 and returned to his native town of Hanover where he obtained a post as civil servant He died in 1840 I have enjoyed these memoirs very much Not only because they give a very precise and clear picture of the military operations that Schaumann was involved in but also and

foremost because they give an insight into aspects of the Napoleonic Wars that don't get much attention in other memoirs I am referring to the logistic problems that all Napoleonic and in particular the British army faced in those days and how the civilian population of Spain and Portugal lived and coped during this dark period of their history *The Jobfather Chronicles* John Aigner, 2022-02-02 The Jobfather Chronicles Breadcrumbs on the Trail of Right Livelihood By John Aigner About the Author For more than sixty years as an activist mentor and livelihood advisor John Aigner has served the underserved In the Jobfather Chronicles he reviews his life and times with humor gratitude and some regret This memoir combines a historical viewpoint of his times with frequent commentary on our current dilemmas Over 20 years ago he adopted the title Jobfather to brand his work as an out of the box career counselor As a counselor advisor and pundit he has helped thousands to find their right livelihood He looks forward to his next project working with ex offenders in a restorative justice initiative using emerging online video conferencing capabilities and developing the resulting interviews and lived experience into a new book on the subject
