neoliberalization of the economy the queerly human child signals something new the biopolitics of reproduction By promising the pliability of the body's vitality the pregnant woman and the sacred child have become the paradigmatic figures for twenty first century biopolitics      Reproducing the Womb Alice Elaine Adams,1994 Alice E Adams crafts a subtle new response to the controversies surrounding reproductive freedom and the implications of medical technology She explores a spectrum of competing visions of childbearing from misogynistic nightmares of matriarchal control to feminist utopias Firmly rooted in political reality Adams offers innovative answers to the questions posed by the intimate interconnections and the perceived conflicts between fetus and mother individual and collective      **Longer Views** Samuel R.
