Weapons of Choice John Birmingham, 2005-04-26 On the eve of America s greatest victory in the Pacific a catastrophic event disrupts the course of World War II forever changing the rules of combat The impossible has spawned the unthinkable A military experiment in the year 2021 has thrust an American led multinational armada back to 1942 right into the middle of the U S naval task force speeding toward Midway Atoll and what was to be the most spectacular U S triumph of the entire war Thousands died in the chaos but the ripples had only begun For these veterans of Pearl Harbor led by Admirals Nimitz Halsey and Spruance have never seen a helicopter or a satellite link or a nuclear weapon And they ve never encountered an African American colonel or a British naval commander who was a woman and half Pakistani While they embrace the armada s awesome firepower they may find the twenty first century sailors themselves far from acceptable Initial jubilation at news the Allies would win the war is quickly doused by the chilling realization that the time travelers themselves by their very presence have rendered history null and void Celebration turns to dread when the possibility arises that other elements of the twenty first century task force may have also made the trip and might now be aiding Yamamoto and the Japanese What happens next is anybody s guess and everybody s nightmare

Grau, Dodge Billingsley, 2011-11-25 Long before it became Obama s War the long running conflict in Afghanistan was launched by President George W Bush in retaliation for the 9 11 attacks on the United States Only a few months later Operation Anaconda sent American led coalition forces into their most intensely brutal confrontation with Al Qaeda and their Taliban hosts in the Shar i Kot Valley near the Pakistan border The result was an unexpected set piece of conventional fighting in what has become an era of guerrilla warfare Drawing upon previously unavailable or neglected sources Lester Grau and Dodge Billingsley give us the most complete and accurate account of this thirteen day firefight waged in mountainous terrain nearly two miles above sea level They describe how allied troops fought a fierce and well entrenched enemy to a standstill close to an old Soviet battlefield and then drove them completely out of Afghanistan Grau and Billingsley s account also highlights problems encountered in Anaconda and the lessons we should learn from their in depth study The Army and Air Force operated under conflicting views regarding the appropriate application of Close Air Support and airpower both crippled and aided the overall effort In addition severe shortages of transport attack helicopters and artillery hampered the effort while the acquisition and timely sharing of intelligence barely occurred at all and coalition relations frayed under the intense pressures of combat As an added bonus the authors also include with the book a

documentary on DVD that features interviews with soldiers who fought in Anaconda provides additional information concerning major phases of the battle and presents insightful commentary by Grau and by Billingsley who was on the ground with U S forces for the operation Providing the richest description and critique of all the forces involved including those that fought on the enemy side the combined book and DVD surpasses all previous accounts of this landmark engagement and is an essential volume in the literature on our war in Afghanistan *Dark Desires* Aja James,2022-03-12 2018 Reader s Favorite Winner Every story has more than one side like a crystal that captures and reflects different colors of light Do not take for granted what you think you know for until you hold the entire jewel in your palm the temptation is to fall prey to illusion and deception This is a story of the Dark Ones Ryu Takamura is the Dark Ones Assassin He has never missed his target until now Until her Ava Monroe is a talented geneticist who holds the key to the vampire race s future and perhaps her own as well Their attraction is explosive from the first She would do anything to have him He would sacrifice all to protect her But will their love triumph over seemingly impossible odds as they battle enemies new and old Especially the demons from Ryu s past And deep within his heart *Alpha Field (Book 3 of FERTS)* Grace Hudson,2017-04-18 Beth 259201 is free adjusting to life at the camp with her new companions For now peace is assured or so they believe When danger strikes 201 is faced with a deadly decision Remain in freedom and ignorance or do the unthinkable To combat the influence of FERTS she must once again deceive in order to bring the truth to light The war is coming but 201 and her companions are unaware that FERTS is hiding a secret weapon One that could destroy them all **Military Review** ,2006 *Pure Awakening* Aja James,2022-02-25 I have always loved him Though that love has evolved metamorphosed transmuted over time and sometimes it felt a little maybe a lot like hate what hasn t ever changed is that I love him But I didn t comprehend the depth of my love the teeth and claws and desperate prayers of my love until six hours ago They say he s missing The Royal Zodiac me and my inner circle hasn t been complete these past two years since the attack Every time we get close to a potential candidate to recruit into our ranks they disappear the most likely scenario being that Medusa and her minions got to them first And now she has Dalair I won t rest until I get him back My name is Sophia Victoria St James I am Queen of the Pure Ones This is my Awakening **Kidnapping and Abduction** Brian John Heard,2014-12-01 Terrorist groups and organized crime cartels pose an increasing threat of kidnapping throughout many regions in the world At the same time international travel has become more commonplace for both business and leisure purposes Kidnapping and Abduction Minimizing the Threat and Lessons in Survival provides a practical guide on the precautions travelers can take to avoid being kidnapped or derail a kidnapping attempt in progress In the event this cannot be avoided the book supplies advice on how to ensure survival during captivity Readers will learn The basic elements of kidnapping and abduction The motivations and mechanisms of kidnappers The hotspots where kidnapping hostage taking is prevalent Vehicles best suited for avoidance of kidnap threat and proposals for up armoring an existing vehicle How to recognize immediate threats and precautions to be taken in
