World Myth or History? J.G. Cheock, 2017-10-02 World myth deciphered and organized into a coherent story of our past It is almost impossible to read world mythology without noticing common threads and patterns that seem to paint a bigger picture A story told by our ancient ancestors for future generations to remember

Slender Man Is Coming Trevor J. Blank, Lynne S. McNeill, 2018-09-21 The essays in this volume explore the menacing figure of Slender Man the blank faced long limbed bogeyman born of a 2009 Photoshop contest who has appeared in countless horror stories circulated on and offline among children and young people Slender Man is arguably the best known example in circulation of creepypasta a genre derived from copypasta which in turn derived from the phrase copy paste As narrative texts are copied across online forums they undergo modification annotation and reinterpretation by new posters in a folkloric process of repetition and variation Though by definition legends deal largely with belief and possibility the crowdsourced mythos behind creepypasta and Slender Man suggests a distinct awareness of fabrication Slender Man is therefore a new kind of creation one intentionally created as a fiction but with the look and feel of legend Slender Man Is Coming offers an unprecedented folkloristic take on Slender Man analyzing him within the framework of contemporary legend studies creepypastas folk belief and children's culture This first folkloric examination of the phenomenon of Slender Man is a must read for anyone interested in folklore horror urban legends new media or digital cultures Contributors

Masters of Mathematics Robert A. Nowlan,2017-05-13 The original title for this work was Mathematical Literacy What Is It and Why You Need it The current title reflects that there can be no real learning in any subject unless questions of who what when where why and how are raised in the minds of the learners The book is not a mathematical text and there are no assigned exercises or exams It is written for reasonably intelligent and curious individuals both those who value mathematics aware of its many important applications and others who have been inappropriately exposed to mathematics leading to indifference to the subject fear and even loathing These feelings are all consequences of meaningless presentations drill rote learning and being lost as the purpose of what is being studied Mathematics education needs a radical reform There is more than one way to accomplish this Here the author presents his approach of wrapping mathematical ideas in a story To learn one first must develop an interest in a problem and the curiosity to find how masters of mathematics have solved them What is necessary to be mathematically literate It s not about solving algebraic equations or even making a geometric proof These are valuable skills but not evidence of literacy We often seek answers but learning to ask pertinent questions is the road to mathematical literacy Here is the good news new mathematical ideas have a way of finding applications This is known as the unreasonable effectiveness of mathematics *Loki and Sigyn* Lea Svendsen,2022-02-08 Uncover the Truth about Loki and His Devoted Wife Sigyn This captivating book takes you deep into the infamous legacy of Loki and the quiet power of Sigyn the goddess of loyalty and compassion As a controversial figure in Heathenry Loki is often approached with trepidation But this book introduces you to his true self a trickster but also a loving husband and creative problem solver Join Heathen author Lea Svendsen on a rich exploration of these two Norse deities together and separate Discover their adventures in parenthood their complicated relationships with the other gods and their entertaining exploits Learn how to set up an altar to each of them what offerings they like and how to perform rituals You ll also enjoy compelling thoughts on Loki and Sigyn from Pagan and Heathen leaders such as Patricia Lafayllve and Erika Wren Includes a foreword by Mortellus author of Do I Have to Wear Black

Girls, Autobiography, Media Emma Maguire,2018-04-05 This book investigates how girls automedial

selves are constituted and consumed as literary or media products in a digital landscape dominated by intimate though quite public modes of self disclosure and pervaded by broader practices of self branding In thinking about how girlhood as a potentially vulnerable subject position circulates as a commodity Girls Autobiography Media argues that by using digital technologies to write themselves into culture girls and young women are staking a claim on public space and asserting the right to create and distribute their own representations of girlhood Their texts in the form of blogs vlogs photo sharing platforms online diaries and fangirl identities show how they navigate the sometimes hostile conditions of online spaces in order to become narrators of their own lives and stories By examining case studies across different digital forms of self presentation by girls and young women this book considers how mediation and autobiographical practices are deeply interlinked and it highlights the significant contribution girls and young women have made to contemporary digital forms of life narrative

Focus On: 100 Most Popular Knights of the Garter Wikipedia contributors, **How Antigravity Built the Pyramids** Nick Redfern, 2022 Throughout history folklore and mystery tales have circulated of massive stones being moved through the air effortlessly by sound Bizarre Well yes it is That doesn't take away the fact that sound was and still remains the key to the construction of the pyramids of Egypt Stonehenge the stone figures of Easter Island and the massive stones at Baalbek Lebanon Were they the work of ancient humans or of equally ancient extraterrestrials back cover

Faith, folk and the far right Dominic Alessio, Robert J. Wallis, 2025-06-24 This book offers the first examination of extremist Heathenry and occultism in the UK and how anti racist Heathens act to counter this discourse It explores the spectrum of Heathen practice today and the historical origins of racist Heathenry in nineteenth century Germanic romanticism and twentieth century folkish nationalism Treating each of the three main extremist Heathen organisations the book extends the analysis to the neo Nazi occult organization the Order of the Nine Angles O9A and the wider racist Heathen cultural scene in Black Metal and Dark Folk music The authors balance this with discussion of how inclusivist Heathens are countering this discourse from visible protests at far right rallies to inter faith forums and an active presence on social media platforms The book makes an important contribution to the intersecting fields of new religious movements nationalist history and racist politics

Epidemic Films to Die For Tom Zaniello, 2024-10-17 Epidemic cinema remains an enduring genre of contemporary film ranging from medical dramas to post apocalyptic thrillers Using a vast filmography Zaniello not only details the incredible variety of epidemics and their role in popular culture but also demonstrates how epidemics as a rule have been confronted without proper preparation or deployment of resources in different forms of media Therefore Epidemic Films to Die For is the first and the only book that extensively analyzes the history and deployment of films and TV series towards a chronicle of epidemic films In addition to providing an overview of how widespread disease and illness have been historically depicted via film and media this book skillfully contextualizes the contemporary ongoing moment in which filmmakers and producers grapple with the cultural imaginary surrounding the COVID 19 pandemic
